

PLASMA CUTTING MACHINE (IGBT INVERTER BASED)

FEATURES :

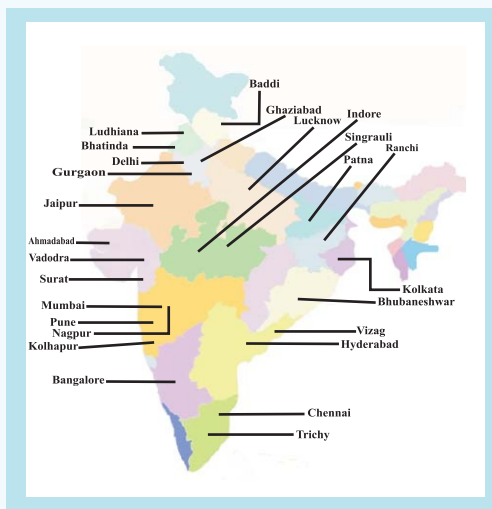

- ❖ 100% Indigenous Product.
- ❖ Designed for highest reliability.
- ❖ Portable and Light Weight.
- ❖ Suitable for cutting all metals. SS, MS, AL., Copper etc.
- ❖ Designed for manual and mechanized applications.
- ❖ Most economical quality consumables, spares and after sales service.
- ❖ Lowest cutting cost even for Mild Steel.

TECHNICAL SPECIFICATIONS

MODEL	KALI 45i
Input Supply	3Ph., 400Volts, \pm 10% AC., 50Hz
Output Current	10 – 45Amps., DC
Cutting Thickness	Production Cut : 12mm Coarse Cut : 25mm
Insulation Class	‘H’
Power Source Cooling	Forced Air
Torch Cable Length	6mtrs.
Protections	Against Voltage Fluctuations, Low Air Pressure etc.
Weight	25Kgs.

STANDARD ACCESSORIES

- Plasma Hand Cutting Torch - 6mtrs. Long.
- Earthing cable with clamp - 6mtrs. Long.
- Hand Gloves.
- Protective Goggles.
- Air Filter cum Regulator fitted with the machine, other than fitted in the Torch.
- Electrode & Nozzle - 3 sets.
